

KEY FEATURES

- ColorStream Pro® Component Video Output (DVD only)
- Digital Cinema Progressive (3:2 Pulldown)
- 10-Bit/54-MHz Video D/A Converter
- JPEG Viewer
- 4-Head/19-Micron Design
- S-VHS Quasi Playback

- Coaxial Digital Audio Output
- WMA & MP3 Playback
- 24-Bit/192kHz Audio D/A Converter
- Virtual Surround Sound
- VHS Hi-Fi Stereo
- MTS/SAP Tuner

- Simultaneous DVD Playback and VHS Record
- Auto Clock
- Commercial Skip
- Front A/V Inputs

ADVANTAGE TOSHIBA

- >> Combines the picture and sound advantages of a progressive scan DVD player with the convenient recording and playback options of a videocassette recorder.
- >> ColorStream Pro® Progressive Scan Component Video Outputs compatible with today's finest analog and digital televisions for delivery of stunningly colorful images.
- >> Simultaneous DVD playback and VHS record for watching a DVD while recording a TV program.
- >> 10-Bit/54MHz Video digital-to-analog conversion for maximum color purity, detail, and resolution.
- >> 24-Bit/192 kHz PCM Audio Compatibility delivers warmer, more natural-sounding audio from many types of discs.
- >> DVD-Video/CD/Video CD playback. DVD-R/DVD-RW/CD-R/CD-RW compatible playback ensures discs made with recording devices can be played back in the home theater system, too.
- >> JPEG Viewer enables a user to display digital photographs on a television set in the JPEG digital format.

SD-V393

TECHNOLOGY & BENEFITS

VIDEO

- >> **ColorStream Pro[®] Component Video Outputs** - These outputs allow the highest quality video signal to be sent from the DVD player to a component video equipped progressive scan TV. When this connection is utilized with today's HD-compatible sets, typical NTSC artifacts-like video noise, dot crawl, and flicker-are virtually eliminated, resulting in a low-noise, highly detailed picture with unequaled color purity.
- >> **Digital Cinema Progressive (3/2 Pulldown)** - Delivers the smoothest, most film-like images to any progressive scan television, such as an HD-compatible one, and ensures maximum resolution.
- >> **JPEG Viewer** - Enables the display of digital photographs captured in the JPEG format. Simply load the CD with your favorite photos and create custom slide shows with a few simple clicks of the player's remote control.
- >> **4-Head/19-Micron Head System** - Offers superior slow motion effects over conventional 2 head VCR designs. Toshiba's 19-Micron Heads match precisely the width of the SP and SLP azimuths and read only the signal recorded on each azimuth (not adjoining tracks). The benefit is significantly enhanced SLP performance that is so good, it rivals the quality of tapes recorded in the SP Mode.
- >> **S-VHS Quasi Playback** - This features will allow tapes that were recorded in a Super VHS deck to be played back in the Toshiba deck without a significant reduction in quality.

AUDIO

- >> **WMA & MP3 Playback** - Recordable Compact Discs (CD-R & CD-RW) with music stored in either the Windows Media[™] Audio or MP3 file formats can be enjoyed.
- >> **Coaxial Dolby[®] Digital and DTS[®] Surround Sound Output** -Use the single RCA-type jack to send signature multi-channel audio to an audio/video receiver with a compatible input
- >> **VHS HiFi Stereo** - Delivers the highest quality stereo sound from tapes recorded with a high fidelity soundtrack. Can be used in conjunction with a surround sound receiver to create signature Dolby[®] Surround, Dolby[®] ProLogic, or Dolby[®] ProLogic II Surround sound in a home theater environment.

CONVENIENCE

- >> **Auto Clock** - This feature ensures that your VCR never blinks "12:00" again. A special data stream in your local broadcast source (where available) automatically sets the clock display and keeps it accurate even when time changes to daylight savings and back.
- >> **Commercial Skip** - After a program has been recorded, pressing the SKIP button once during playback will automatically advance the tape 30-seconds forward bypassing recorded commercials. Pressing the skip button on the remote again will advance the recorded tape for another 30-seconds for a total of 60-seconds.(30 sec x 6 Maximum).

SPECIFICATIONS

DVD	Disc Qty	1
	Disc Play	DVD-Video/DVD-R/DVD-RW/CD/CD-R/CD-RW*/VCD
Video		
	Video D/A	10-Bit/54MHz
